

WINDOWS of the FUTURE!

Residence Renewal | Xavier Knoll

The first group of Xaverians arrived in Franklin, Wisconsin in 1957 to establish their only U.S. Major Seminary. Through the years it continues to house missionaries for advanced studies, serves as a vocation discernment center, the place of first welcoming for those who feel a call to missionary life, and now as the USA Xaverian Delegation Headquarters.

The house in Franklin has been updated in the past but still needs some improvements. One of these is to update the Windows of the building, since they have reached their functional lifespan (30 years). The constant repair and the inefficiency of the windows call for this upgrade.

Join us as we raise funds to upgrade the Xaverian Mission Center which is committed to building community locally and internationally, to keep alive the missionary spirit of the Church, to form the laity, to care for those who can no longer partake of the life in their parish community.

Hopeful Goal: \$150,000.00

Your Prayerful donation will help us to meet our goal!

We want to thank you from the bottom of our hearts for your generosity. We could never repay you for all of your help. May our good Lord continue to bless you and all of us in our vocation to share the Good News of Salvation.

2025 Windows Upgrade
